

**Liquefied Natural Gas Workshop
Presented by the World Bank**

Tentative Workshop Program

Friday, October 23, 2015

	<i>Topic</i>
9.00 – 9.15	Opening session <ul style="list-style-type: none">- Welcome address and introduction of workshop objectives
9.15 – 10.30	LNG Market Overview – Essential parameters Myanmar should consider (75 minutes including discussion): <ul style="list-style-type: none">- Trends in LNG markets including supply, demand, pricing, and technology, including small and mid-scale LNG possibilities
	Coffee break
11.00–12.00	Around the World in FSRUs (60 minutes including discussion) <ul style="list-style-type: none">- Floating Storage and Regasification Units (FSRUs) have emerged as a preferred import terminal solution for many new buyers of LNG. The presentation will cover every operating floating terminal in the world, plus some that have been decommissioned and a selection of FSRU or FSU projects that are under development
	Lunch
13.30–15.30	LNG Terminalator (60 Minutes for base case demo, followed immediately by 60 minutes scenario runs and discussion) <ul style="list-style-type: none">- Demonstration of excel-based tool for “building” an LNG terminal to support power generation.
	Discussion and conclusion
